

St Ethelbert's Catholic Primary School

Pupils Acceptable Use Policy:

"I serve Jesus with my body, heart, mind and soul."

Serviam means 'I serve'. Jesus Christ has taught us that it is more blessed to serve than to be served. At St Ethelbert's school, following our Catholic faith, we serve the whole person – mind, heart, body and soul.

Body – because we care for our wellbeing, our parish neighbourhood and our environment.

Heart – because we teach love and respect for all.

Mind – because we believe in excellent education.

Soul – because we learn to pray and become closer to God as his children.

Note: Please be aware that if parents/carers refuse to sign and agree the AUP then this can cause issues as children will need to use the internet in order to access the curriculum. Schools must have a robust process in place to manage and record parental responses and also to engage with parents who do not respond. Alternatives include highlighting online safety (e-Safety) within the Home School Agreement and an acknowledgement form for the AUP.

Use of Cloud Systems Permission Form

Schools that use cloud hosting services may be required to seek parental permission to set up an account for pupils / students. Cloud systems such as Google Apps for Education services www.google.com/apps/intl/en/terms/education_terms.html may require that schools obtain 'verifiable parental consent' for children to be able to use the system and services. Schools may wish to incorporate this into their standard acceptable use consent forms. Schools will need to review and amend the section below, depending on which cloud hosted services are used. The Department for Education has published advice and information regarding Cloud (educational apps) software services and the Data Protection Act here: <https://www.gov.uk/government/publications/cloud-software-services-and-the-data-protection-act>

The school uses Google Apps for Education for pupils and staff. This consent form describes the tools and pupil responsibilities for using these services.

The following services are available to each pupils and hosted by Google as part of the school's online presence in Google Apps for Education (**amend as appropriate as not all schools will use all options/apps**):

- **Mail** - an individual email account for school use managed by the school
- **Calendar** - an individual calendar providing the ability to organize schedules, daily activities, and assignments
- **Docs** - a word processing, spreadsheet, drawing, and presentation toolset that is very similar to Microsoft Office
- **Sites** - an individual and collaborative website creation tool

Using these tools, pupils collaboratively create, edit and share files and websites for school related projects and communicate via email with other pupils and members of staff. These services are entirely online and available 24/7 from any Internet-connected computer. Examples of student use include showcasing class projects, building an electronic portfolio of school learning experiences, and working in small groups on presentations to share with others.

(Insert specific school action and details regarding safeguarding measures being taken by the school, including data protection, pupil training, supervision etc)

The school believes that use of the tools significantly adds to your child's educational experience.

As part of the Google terms and conditions we are required to seek your permission for your child to have a Google Apps for Education account:

<p>Use of Cloud Storage Systems – Parental Consent</p> <p>Child's Name..... Class.....</p> <p>Parents Name.....</p> <p>Parents Signature.....</p> <p>Date.....</p>

Optional Form.

This form was originally created and has been kindly shared by the South West Grid for Learning: www.swgfl.org.uk

This form should be used in accordance with DfE Guidance: <https://www.gov.uk/government/publications/cloud-software-services-and-the-data-protection-act>

Sample Letter for parents/carers

Dear Parent/Carer

All pupils use computer facilities including Internet access as an essential part of learning, as required by the National Curriculum. Your child will have the opportunity to access a wide range of information and communication technology (ICT) resources. This includes access to:

- Computers, laptops and other digital devices
- Internet which may include search engines and educational websites
- School learning platform/intranet
- Email
- Games consoles and other games based technologies
- Digital cameras, web cams and video cameras
- Recorders and Dictaphones
- Mobile Phones and Smartphone's

St Ethelbert's Catholic Primary School recognise the essential and important contribution that technology plays in promoting children's learning and development and offers a fantastic range of positive activities and experiences. However we also recognise there are potential risks involved when using online technology and therefore have developed online safety (e-Safety) policies and procedures alongside the schools safeguarding measures.

The school takes responsibility for your child's online safety very seriously and, as such, we ensure that pupils are educated about safe use of technology and will take every reasonable precaution to ensure that pupils cannot access inappropriate materials whilst using school equipment.

The school ensure that the server and monitoring services are always up to date. Pupils' usage will be monitored by an adult as much as possible. Pupils will have delivered by Teachers and outside agencies regular e-safety lessons/ presentations.

However no system can be guaranteed to be 100% safe and the school cannot be held responsible for the content of materials accessed through the internet and the school is not liable for any damages arising from use of the schools internet and ICT facilities.

Full details of the school's Acceptable Use Policy and online safety (e-Safety) policy are available on the school website (<http://www.st-ethelberts.kent.sch.uk>) or on request.

We request that all parents/carers support the schools approach to online safety (e-Safety) by role modelling safe and positive online behaviour for their child and by discussing online safety with them whenever they access technology at home. Parents/carers can visit the school website's (<http://www.st-ethelberts.kent.sch.uk>) for more information about the school's approach to online safety as well as to access useful links to support both you and your child in keeping safe online at home. Parents/carers may also like to visit www.thinkuknow.co.uk, www.childnet.com, www.nspcc.org.uk/onlinesafety, www.saferinternet.org.uk and www.internetmatters.org for more information about keeping children safe online

Whilst the school monitors and manages technology use in school we believe that children themselves have an important role in developing responsible online behaviours. In order to support the school in developing your child's knowledge and understanding about online safety, we request that you read the attached Acceptable Use Policy with your child and that you and your child discuss the content and return the attached slip. Hopefully, you will also find this Acceptable Use Policy provides you with an opportunity for conversations between you and your child about safe and appropriate use of the technology, both at school and at home.

Should you wish to discuss the matter further, please do not hesitate to contact m

(Additional Paragraph for Early Years/KS1/SEN)

We understand that your child is too young to give informed consent on his/ her own; however, we feel it is good practice to involve them as much as possible in the decision making process, and believe a shared commitment is the most successful way to achieve this.

Yours sincerely,
Headteacher

Sample Letter for Staff

Please note this letter does NOT replace a Staff AUP

Dear xxxxx

Social media can blur the definitions of personal and working lives, so it is important that all members of staff take precautions in order to protect themselves both professionally and personally online.

Be very conscious of both your professional reputation and that of the school when you are online. All members of staff are strongly advised, in their own interests, to take steps to ensure that their personal information and content is not accessible to anybody who does not or should not have permission to access it. All staff must also be mindful that any content shared online cannot be guaranteed to be “private” and could potentially be seen by unintended audiences which may have consequences including civil, legal and disciplinary action being taken. Ensure that your privacy settings are set appropriately (many sites have a variety of options to choose from which change regularly and may be different on different devices) as it could lead to your content accidentally being shared with others.

Be very careful when publishing any information, personal contact details, video or images etc online; ask yourself if you would feel comfortable about a current or prospective employer, colleague, child in your care or parent/carer, viewing or sharing your content. If the answer is no, then consider if it should be posted online at all. It is very important to be aware that sometimes content shared online, even in jest, can be misread, misinterpreted or taken out of context, which can lead to complaints or allegations being made. Don't be afraid to be yourself online but do so respectfully. All staff must be aware that as professionals, we must be cautious to ensure that the content we post online does not bring the school or our professional role into disrepute.

If you have a social networking account, it is advised unless agreed by the Headteacher, that you do not to accept present pupils or their parents/carers as “friends” on a personal account. You may be giving them access to your personal information and allowing them to contact you inappropriately through unregulated channels. They may also be giving you access to their personal information and activities which could cause safeguarding concerns. Please use your work provided email address (or approved by the Headteacher email or phone number to contact children and/or parents – this is essential in order to protect yourself as well as the wider community. If you have a pre-existing relationship with a child or parent/carer that may compromise this or have any queries or concerns about this then please speak to the Online safety (e-Safety) Coordination/ Designated Safeguarding Lead /Manager (Mr Steve Kelly, Mr John Letts, Mrs Anne-Marie Butchard-Thursten).

Documents called “Cyberbullying: Supporting School Staff”, “Cyberbullying: advice for headteachers and school staff” and “Safer professional practise with technology” are available in the staffroom to help you consider how to protect yourself online. Please photocopy them if you want or download the documents directly from www.childnet.com, www.e-safety.org.uk and www.gov.uk/government/publications/preventing-and-tackling-bullying. Staff can also visit or contact the Professional Online safety Helpline www.saferinternet.org.uk/about/helpline for more advice and information on online professional safety.

I would like to remind all staff of our Acceptable Use Policy and the importance of maintaining professional boundaries online. Failure to follow this guidance and the school policy could lead to disciplinary action, so it is crucial that all staff understand how to protect themselves online. Please speak to your line manager, the Designated Safeguarding Lead (Mr Steve Kelly, Mr John Letts, Mrs Anne-Marie Butchard-Thursten) or myself if you have any queries or concerns regarding this.

Yours sincerely,

Headteacher

13. My electronic communications with pupils, parents/carers and other professionals will only take place within clear and explicit professional boundaries and will be transparent and open to scrutiny at all times. Any pre-existing relationships or situations that may compromise this will be discussed with the Senior Leadership team and/or Head Teacher.
14. I will ensure that my online reputation and use of ICT and information systems are compatible with my professional role, whether using school or personal systems.
